

# EMBARK ON A JOURNEY

Be a botanist.

Can you find these BIG 5 PLANTS in the Botanic Gardens?

They are all native plants which have grown in the area around Lismore for many thousands of years.

Look in the Gardens near the cubby and the snake-shaped garden

*Geitonoplesium cymosum*

This one is a vine which climbs

Scrambling Lily

*Doryanthes palmeri*

(Say: do- ree- an- this)

Look for very big leaves

Palm Lily

*Araucaria cunninghamii*

(say a- ru- kar- ree ah)

Hoop Pine

This plant is a very tall tree

*Geranium solanderi*

This plant grows along the ground.

Native Geranium

*Rubus parvifolius*

Native raspberry

Watch out for my prickles!

Welcome to Lismore Rainforest Botanic Gardens  
on Bundjalung land.
